Providing prosperity to the communities is embedded within our culture

With operations scattered throughout PNG, Anitua's people have become immersed within a variety of local communities. Taking the time to understand the different customs and beliefs, our people are always sensitive to their issues.

Anitua has gained the respect and confidence of many landowner groups across PNG for our honesty and integrity in dealing with landowners.

As the World Bank commended 'premier example of a group of successful landowner owned businesses in Papua New Guinea', we are driven by a desire to provide prosperity to the communities in which we operate – by providing employment, training, social services and sponsorship.

We work with our clients to ensure their 'local hire' requirements are met. The majority of our workforce are Papua New Guinea nationals, so we are experienced in industrial relations issues and working with local landowners, to ensure they get to participate in and benefit from major projects.

Excellence to customers and prosperity to our communities

As a 100% PNG owned company, Anitua is well experienced in working with local/indigenous communities. Providing prosperity to the communities is embedded within our culture, so we know the importance of hiring and training local people in each area we operate in.

WORLD BANK COMMENDATION AS A STANDOUT LANDOWNER COMPANY

On EMTV's 'Business PNG' program, the Anitua Group was commended by World Bank Country Manager, Laura Baily, as a stand out example of a successful, special and unique landowner company, and one of the best in PNG.

Special mention was also made of camp management and catering company NCS, a subsidiary of the Anitua Group. Surveys carried out by the World Bank highlighted that the Anitua Group of Companies has the right commercial model, which is deemed critical to ongoing sustainability and success. Laura went on to explain that for landowner companies to be successful, they cannot behave as a social entity – but must have a clear and focused commercial model.

The Group's clear and explicit understanding of its business goals (operating alongside its clear social goals) and its ability to attract senior talent who have a genuine commitment to development and a focus on building the skills of PNG workers have been key factors in the Group's success.

The Group was recognised for being able to grow and expand beyond the initial resource project that enabled the Group to exist – to expand and diversify the businesses within the Group and to expand geographically throughout PNG.

This successful expansion and diversity of the Group's portfolio of businesses has contributed to providing sustainable jobs, training a large number of people and helped improve the quality of life of those in the communities in which it operates.

Laura Baily, Country Manager PNG – World Bank on a recent edition of EMTV's 'Business PNG' program

Being recognised by a prestigious entity, such as the World Bank is something the Anitua Group is truly proud of.

WORLD BANK COMMENDATION FOR CORPORATE SOCIAL RESPONSIBILITY PROGRAMS

Anitua understands that being a successful company is more than just a healthy balance sheet. It's also about giving back to the community and recognising that healthy, prosperous communities are good business.

Spearheading Anitua's Corporate Social Responsibility program and in accord with our vision for healthy, prosperous and sustainable communities in which we operate, is our *Elimination of Violence Against Women* program. A comprehensive and group-wide approach to eliminating violence against women.

Another key element of our Corporate Social Responsibility is our *Elimination of Malaria* Program.

Our recruitment, training, development and empowerment of women is realised through diverse programs addressing education, mentoring, professional development, flexible work options, and health.

Elimination of violence against women

At Anitua we aim to eliminate violence against women in five ways:

- Championing and committing to fund the construction of a Meri Self Haus (women's refuge) on Lihir, the company's birth place.
- Implementing the international White Ribbon Workplace Program throughout our businesses.
- Lobbying other businesses and the mining industry to introduce their own *Elimination of Violence Against Women* initiatives.
- Keeping the problem of violence against women in the public eye through a variety of media, activities and events.
- Assisting other businesses to introduce *Elimination of Violence Against Women* initiatives through our involvement with the World Bank-IFC sponsored Business Coalition for Women.

WORLD BANK COMMENDATION FOR CORPORATE SOCIAL RESPONSIBILITY PROGRAMS

The Anitua Group is supporting a plan to eliminate Malaria from the Lihir Islands.

Elimination of Malaria

Malaria negatively impacts the health and well being of thousands of Papua New Guineans on a daily basis. Malaria is the leading cause of death on Lihir Island.

In partnership with Newcrest Mining Ltd, the Anitua Group is supporting a plan to eliminate Malaria from the Lihir Islands through:

- intensive vector control that will effectively reduce mosquito-person contact
- a series of mass treatment campaigns to rapidly reduce the malaria parasite burden
- a system of community surveillance-response to tackle residual foci.
